MDF 747
DUAL HEAD
STETHOSCOPE

The lightweight MDF 747 combines bowles and bell flexibility together with a full rotation acoustic valve stem to provide sensitive acoustics and professional performance for general assessment and blood pressure examination.

MDF 747XP
DELUXE DUAL HEAD
STETHOSCOPE

Our MDF 747XP has been selected by international health and humanitarian organizations as the designated stethoscope for its overall utility and dependability. A lightweight MDF Dual Head Stethoscope is a modified dual head that resembles the performance of the Stainless Steel Dual Head, MDF 777. With a proprietary acoustic chamber, extra-large bowles and bell, the MDF 747XP delivers accurate auscultation amid performance and reliability.

MDF 767
SPRAGUE RAPPAPORT
STETHOSCOPE

Designed to detect the entire range of heart and chest auscultation. It is five-stethoscopes-in one for a full range of flexible diagnostic capabilities that is clinically proven to deliver more faint heart sounds and murmurs than other stethoscopes. Worldwide, it is the most popular stethoscope and the top choice of the medical professionals.
Featured: ICE ANGEL of MDF ICE SERIES.

MDF 777
STAINLESS STEEL
DUAL HEAD
STETHOSCOPE

You'll find no latest claims on this stethoscope; we just used the fundamental principles that have made stethoscopes work over the past 200 years to craft the MDF 777 from premium-grade stainless steel. The finished product is a reliable and precise auscultation instrument with a proper acoustic chamber, extra-large bell, bowles and diaphragm that deliver pure and clear cardiovascular and respiratory sounds.

All MDF stethoscopes are equipped with: **Ergonomax® headset:** Anatomically-angled binaural (5 mm diameter) with enclosed springs or **AccuFit® headset:** Adjustable binaural (5mm diameter) with external spring system. New Clear **ComfortSeal® eartips:** Clear eartips provide improved hygiene and extended usage comfort. **Latex-Free Acoustic Tubings:** Non-sticking, non-cracking, high-density PVC acoustic tubings are extended and heavy-walled for greater acoustic integrity. **Diaphragm:** Raised ultra-sensitive or ultra-thin fiber diaphragm for increased sound amplification. **Accessories:** Extra ComfortSeal® eartips, Diaphragms and ID tag.

This professional-grade system offers durability, portability and accuracy. Ideal for blood pressure measurement in hospital, nursing home, clinic, or emergency medical settings.

MDF 808B
PROFESSIONAL
ANEROID
SPHYGMOMANOMETER

The Palm Aneroid is a 300 mmHg portable blood pressure instrument with inflation bulb and valve integrated to the body of the handheld gauge. This model provides medical professionals all the control in the palm of a single hand. The lightweight property of MDF 848 also offers unsurpassed measurement accuracy and convenience in the harshest outdoor settings.

MDF 848
PALM ANEROID
SPHYGMOMANOMETER

The MDF 800 combines the accurate traditional mercurial instrument with mobility, durability and added-reliability. Equipped with safety features and encased in a simple, sleek, aluminum case, the mercurial manometer is ensured with operating safety measures and protected from external elements.

MDF 800
DESK MERCURY
SPHYGMOMANOMETER

Meets CE standards and American Heart Association recommendations. The Abrasion, chemical and moisture resistant MDF Velcro cuffs are constructed of high-molecular polymer nylon. The universal single or dual tube enable compatible cuff exchange with all MDF and other branded BP systems. Sizes available: thigh, large adult, adult, child, infant and new born. (Swedish SPRI sizes and latex-free also available)

MDF
CUFF SYSTEM

Unique character of MDF sphygmomanometers is derived from a commitment to material authenticity, perfection in detail and a fanatical mindset on quality. Our precision craftsmanship and each handcrafted gauge are tested 3,000 times before it is even assembled. And with an average operating life 3 times longer than an ordinary blood pressure gauge, it represents the result of our endeavors and our pursuit of excellence.
