

# ACCU-CHEK® Performa

## Device Features

### 1. 500-result memory capacity

Helps users (and their Healthcare Professionals) manage diabetes better.

### 2. Preset date and time

Provides faster setup and convenience for user.

### 3. Rubber grips

Help make the meter easy to hold and use.

### 4. Hypo indicator

Helps users manage blood glucose levels.

### 5. Small blood sample of 0.6 µL

Less pain for user.

## Other Key Features Include:

### 5 second results

For faster, more convenient testing.

### 4 test reminders

Help make it easier to remember to test.

### 7, 14, and 30 day test averaging

Provides users (and their Healthcare Professionals) access to more comprehensive testing records.

### General flag

Helps users remember events associated with results.
